

(Algunas Mujeres en la Historia de la Arquitectura.)

Preguntamos a dieciséis arquitectas a quiénes admiran. A partir de sus respuestas, compilamos este mosaico, el cual esboza una historia alternativa de la arquitectura en la que se manifiestan distintas maneras de diseñar, construir, investigar y habitar el espacio. Las arquitectas a continuación son una pequeña muestra de las miles de mujeres que han dado forma a nuestro entorno durante los últimos doscientos años y de las que apenas inician. Los cuadros vacíos representan a aquellas que han sido borradas de la historia.
